ALL-AMERICAN
SCAFFOLD
BY BRAND SAFWAY

Arvest Bank Theatre at The Midland in Kansas City, MO

All-American Scaffold has a five-year maintenance agreement to provide access and scaffolding as needed to The Midland in the Power & Light District of downtown Kansas City. Built in 1927, The Midland is well known for its over 500,000 feet of gold leaf, five giant Czechoslovakian hand-cut crystal chandeliers, irreplaceable art objects, precious antiques and spectacular wood and plaster work. The Midland was renovated in 2007.

› Taking construction to new heights in the Midwest for over 30 years

With a reputation for quality, performance and reliability, All-American Scaffold (AAS) delivers shoring, scaffolding, motorized solutions – and more – to a diverse customer base throughout the Midwest. Whether you need access for a new construction, renovation or remodel project, AAS provides the ideal solution with safe, fast erection and dismantle times, to keep your project on schedule. Founded in 1984 in Des Moines, Iowa, we are ready to apply our years of safe access experience to projects at auditoriums, apartments, government and office buildings, churches, power plants, boilers, tanks and more. Contact us today for more information or a quote on your next project.

› Resources for projects of any size and scope

Scaffold – Rental & Sales

All-American Scaffold offers a full range of supported scaffold options, from Systems™ and Sectional, to Tube & Clamp and SafLock.

Suspended Access Systems ▶

Both the QuikDeck® and QuikShield® Suspended Access Systems provide factory-floor-like working conditions under bridges, so they can remain open during maintenance and repair, as well as over busy public spaces, enabling work to continue above without any disruption below.

Motorized Solutions

Nothing is out of reach with our motorized solutions, from Personnel and Material Hoists, to Swing Stages, Transport Platforms and Mast Climbers.

Vertical Shoring ▶

All-American Scaffold delivers high-performance vertical shoring for projects ranging from apartment complexes to office buildings and power plants.

Custom Engineering

We're ready to custom design the safest, most cost-effective and efficient solution for your next project, including dance floors – elevated platforms built from supported scaffold.

Weather Enclosures ▶

All-American Scaffold provides HAKI® weather protection and enclosures for the protection of assets, equipment and structures or containment.

Event Stages

We offer safe, portable and reliable outdoor and festival staging for all your events.

Fall Protection & Trash Chutes ▶

All-American Scaffold provides fall protection equipment and trash chutes for a safe, fast way to remove debris and help you maintain a safe work environment.

Scaffold access at the John Redmond Dam

All-American Scaffold delivered safe, efficient scaffold for Gracon LLC to replace trunnion pins at the John Redmond Dam and Reservoir in eastern Kansas.

› Safety first

Like your company, at All-American Scaffold, safety is and always will be our number one value. We are committed to helping our entire industry improve safety practices and processes, and we are dedicated to continuously improving our own Environmental, Health and Safety (EHS) performance.

› All-American Scaffold has three convenient locations to serve you.
